RUNNING THE RACE, KEEPING THE FAITH

WELCOME!

October 17, 2019

Dear Christian Educator,

Welcome to the 2019 FACCS State Convention. We're honored that you have chosen to spend the next couple of days with us. We pray that this time will be very beneficial to each of your ministries across this state. Our theme for this convention is

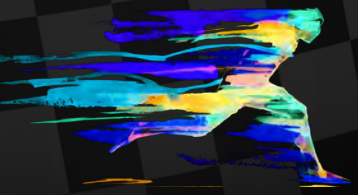

Running the Race, Keeping the Faith

Have you ever run a race? Running a good race requires focus, physical exertion, and perseverance. Running a race means you're in it for the long haul. From start to finish, you lay all distractions aside and you remain focused on moving forward and finishing the race. You don't look back, you don't turn around and most importantly you don't quit.

In the Christian life, we run the race of faith. We strive to finish strong and God declares us victorious as we cross the finish line. There are periodic struggles along the race of faith - one being the decline of our moral culture. A recent newspaper article said that our country is so divided that we could be headed toward a civil war. There is an increasing mindset toward socialism and acceptance of every idea, except Christianity. It is unfortunate, but our Christian schools and churches are being influenced by the culture instead of the other way around. We cannot afford to lose another generation that so desperately needs to take a stand for righteousness and biblical morals.

We need to be shaken at our very core toward personal revival. I believe that one of our keynote speakers, Dr. George Barna will open our eyes to the urgency of reaching this generation. He has spent his life devoted to the trends of the church and Christianity. His statistics may be alarming, but hope is not lost! God's will is that we continue to serve Him faithfully and reach our students with the Gospel for it is the power that changes lives.

For Christian education,
Dr. Marc T. Mortensen
President
Florida Association of Christian Colleges and Schools

KEYNOTE SPEAKERS

DR. GEORGE BARN

The Barna Group/Metaformation

George Barna is a professor at Arizona Christian University and leads the Cultural Research Center based at the university. His focus at ACU is worldview assessment and development, and cultural transformation.

He was the founder and leader of both The Barna Group (which he sold in 2009) and the American Culture and Faith Institute (which closed in 2018). He has also been the President of Metaformation, a research and communications company, since 2009. Through those entities he has conducted groundbreaking research on worldview, cultural transformation, ministry applications, spiritual development, and politics. In addition to providing research and strategy

for several hundred parachurch ministries, thousands of Christian churches, the U.S. military, and numerous non-profit and for-profit organizations, he has conducted polls and provided strategy input for four presidential candidates.

His work is frequently cited as an authoritative source by the media. Barna has been hailed as “the most quoted person in the Christian Church today” and has been named by various media as one of the nation’s most influential Christian leaders.

After graduating summa cum laude from Boston College, Barna earned two Master’s degrees from Rutgers University and received a doctorate from Dallas Baptist University.

George and his wife Nancy attended high school and college together before marrying in 1978. They have three adopted daughters and three grandchildren, and live on the central California coast. Over the years he has visited more than 30 countries and flown more than two million miles. He enjoys reading novels, performing and listening to music, viewing fine art, rooting for the Yankees and Lakers, and experiencing the ocean.

Dr. Barna will address the convention in General Session I on Thursday at 8:00 AM and General Session II on Thursday at 3:00 PM.

DR. DAVID C. GIBBS, JR.

Christian Law Association

David C. Gibbs, Jr. has spent over forty years in ministry. He is the founder and president of the Christian Law Association, an organization committed to providing free legal counsel to Bible-believing churches and Christians who are experiencing legal obstacles in practicing their religious faith because of governmental regulation, institution, or prohibition of one form or another.

As a young attorney, David Gibbs could hardly believe his ears as the pastor relayed how his church was being sued by the state for operating its ministry. As he reviewed the legal documents, Dr. Gibbs was astonished that such a thing could happen in modern America.

From that very first case through the present day, God has blessed Dr. Gibbs’ commitment to legally help churches, pastors, and Christians free of charge. The ministry has grown substantially through God’s blessing over the last 40 years as attorneys, legal assistants, and other ministry workers have joined their team of “legal missionaries.”

Dr. Gibbs will close the convention by delivering his keynote address in General Session III on Friday at 11:40 AM.

SPECIAL MUSIC WILL BE PROVIDED IN THE GENERAL SESSIONS BY NATHAN AND AMBER KISTLER.

Mr. John Raines

John's experience in Christian education spans over 14 years. He currently serves as the Department Chair of Social Studies and teaches AP United States History, AP US Government and Politics and Global Studies. He is also the Director of TKA Online. John is an innovative educator who has presented at numerous academic workshops providing training opportunities to fellow teachers. John and his wife Kelly have three children, Aaden and Jack, who both attend The King's Academy and Charlotte. Their family attends TruthPoint Church (PCA) in West Palm Beach. John enjoys reading and watching The History Channel and often spends his free time with his young family at the park, the beach, or in Orlando.

Mrs. Sharla Reynolds

Sharla is passionate about helping educators rise to their potential and realize their professional goals. She delights in sharing resources and strategies that enhance education. A graduate of PCC, Sharla has taught everything from K5-college. She has also been an administrator at two Christian schools. Sharla and her family are former missionaries to Albania. She and her husband live in McDonough, GA, where he, Blair, is a hospice nurse. Sharla works as an educational consultant with Class not Chaos Consulting and substitutes in a nearby Christian school.

Mr. James Riches

Mr. Riches is a long time teacher at Rocky Bayou Christian School in Niceville, Florida, alongside his wife and five children. In recent years he has felt God calling him to share some of the wisdom that was poured into him over the years with the Christian school community as we strive to reach the hearts of our students.

Mrs. Rachel Santopietro

Rachel Santopietro is passionate about helping students engage, learn, create, and experience the joy of learning. And she wants this enthusiasm to be contagious. The same sense of wonder that sparked her curiosity in childhood spurred her to pursue a degree in chemistry and a master's degree in education. She wants to share her passion as she draws from her teaching and writing experience to provide academic oversight for writing teams at BJU Press.

Mrs. Anita Sedivy

Mrs. Sedivy holds a BS in Elementary Education and a MEd in Secondary Education. She has spent the last 24 years teaching at Bob Jones Academy in various roles. She has taught in the traditional classroom and also through distance learning. Recently she completed her 6th year as the administrator for Early Education.

Press as the Senior Manager for Biblical Worldview Formation. In this position he assists educators in the work of integrating faith and learning in the classroom. Bryan holds a Ph.D. in Old Testament Interpretation. He and his wife, Becky, have six children.

Mr. Michael Stewart

Dr. Sean Vinaja

Dr. Vinaja, currently teaching a variety of science classes at Pensacola Christian College, has taught physical science, chemistry, and physics at Pensacola Christian Academy and is known to be a caring teacher with a great sense of humor and the ability to clarify challenging concepts. He views science as a study of the order that is intrinsic to any system and strives to help his students understand the reason fundamental processes happen. He requires all students to participate in his classes, using them for demonstrations, asking review and critical-thinking questions, and refusing to take "I don't know" as an answer. As he has opportunities to speak at conventions to other teachers, he wants simply to help each teacher in his area of need, whether that be making a workload more manageable, incorporating more demonstrations for teaching concepts and involving students, or simply adding variety to one's teaching methods. Since graduating from Pensacola Christian College with a double major in Mathematics and Science Education, he has continued his formal education with an MA in

Bible Exposition from Pensacola Theological Seminary, an Ed.S. in Curriculum and Instruction from Pensacola Christian College, and an Ed.D. in Curriculum and Instruction from Liberty University.

Mr. James West

He specializes in treating ADHD, oppositional defiance, and mood disorders often with supplements in place of medication. Jim provides consultation, speaks internationally, and has been a featured speaker for the ACSI and FACCs Conferences. His seminars are experiential, interactive, humorous, informative and engaging.

Ms. Mary Whitfield

Mary Whitfield has a BS degree from Bob Jones University. She has coached on varsity levels of sports in High School and Middle School. She currently teaches Middle School PE at Florida Christian School where she has been employed for over 25 years.

UNDERSTANDING AUTISM DR. DANIEL BERGER II

Autism Spectrum Disorder (ASD) is one of the most confusing human impairments in modern culture, yet more and more families are being affected by its reality. While autism describes a valid neurodevelopmental problem, many children who simply have behavioral problems are too often labeled. In this session, we will examine autism more carefully in order to help those and their families who are genuinely suffering as well as to help eliminate some of the confusion surrounding false diagnoses that are occurring more and more. Some of the questions that will be answered are: what causes autism, how can it be treated effectively, how do we determine if a child genuinely has autism, how do psychoactive substances help or hurt these children, and how can we practically help families with a child diagnosed as autistic or as having sensory processing issues?

Music, a powerful motivator, can also be one of the joys of learning as well. Introducing puppets to the early learner allows his or her mind to create, explore, and flourish. There is no better way to create fun, memorable learning experiences, than by incorporating appropriate melodies and exciting puppet friends into the classroom!
Room 221 B Early Education

Teachers, administrators and parents have something in common (besides a caffeine addiction): a struggle to discipline biblically and effectively. Room 224 B General

REACHING STUDENTS IN A MISSIONAL SCHOOL SETTING MR. GERARDO BARRANTES

While working with international students over the past 5 years, I have come to the conclusion that in many ways many domestic students are at the same starting point. Our Bible classes must be ready to meet our students where they are at on their spiritual journey even if that means they have not even started a journey yet.
Room 224 C General

KEEP PACE WITH YOUR DIGITAL GENERATION STUDENTS DR. KATHIE ERWIN

Tired, wired and mired are characteristics of Digital Generation Students. Discover ways to engage their attention with old school concepts applied in a fresh way to expand students' potential for critical thinking

WHAT IS MENTAL ILLNESS? DR. DANIEL BERGER II

Few people today know where the concept of mental illness began in history. Fewer still understand the philosophical beliefs necessary to sustain the current construct. This session will discuss these foundational issues, study the key figures responsible for creating today's mental health system (believe it or not, Sigmund Freud is not one of the key figures), and in the process will equip attendees with discernment to understand how secular theorists and much of American culture now determine who is normal and who is abnormal. Who gets to buy a gun and who doesn't, is Johnny mentally ill or is he just misbehaving, is transgenderism a

mental illness because of dysphoria or because it is a delusion, and is drinking coffee a mental illness or just something you greatly enjoy?
Room 221 A Mental Health

PREPARING STUDENTS WITH A BIBLICAL VIEW OF WEALTH MS. AMY DUBOIS

Too often, money management is something that gets overlooked in education. We spend years preparing young people to enter the workforce and earn a living only to leave them woefully underprepared to handle the paycheck they receive. The Bible has much to say on this topic and we must pay careful attention to the warnings of the Lord while not ignoring the instruction.
