

What Do I Want To Be

What do I want to be when I grow up? My Mom asked me this. Without a thought I said, "A President." One can imagine why do I say president with so many other things to do. There are a few reasons why I want to be the President. I love helping people and I feel this is passion and my duty. as president, I can protect people from harm, help people like the homeless or orphans, and help everyone in our country especially with COVID-19.

The reason I want to become president is making sure our Union is safe from all harm and dangerous people. I want people to feel safe in their homes, schools, churches, or wherever they may be. I believe in a strong police force like they are our shield or huge building against harm. I believe as president that a stronger trust in our law enforcement and government shows how great God's Love for us. As president, my protection over the citizens is like how God's protection of us as his children.

Second, I want to be the president to help the homeless people, orphans, and all citizens in our nation. My desire is for all citizens to be well and healthy. My heart aches for people that are without things such as food, family, money, or what people need to survive. There is so much food available in our world that God provide for us that no one should be hungry. I believe we all should have a safe place to live and sleep from harm. God provides us with many resources to live. I also believe that citizens should not feel or be alone. People can be taught about God and his love if we love people as God tells us to in the Bible.

Finally, I want to be the president to help everyone from horrible dictators in other places in the world. I want to lead by example showing that how I treat people is how God taught us how to love people in our nation. God loves everyone regardless of who

they are or what they done. Love is the key. Our Union can be happy and safe I believe with God's help and me doing what is needed for the people. I want to help sick people and for anyone to go to the hospital when they need. I want to help and comfort families experiencing problems during COVID-19. Although this is a life changing event, we as a Union are all in this together.

In conclusion, I want to bring togetherness. Ideally, I would like people to know God like we use to. In 1 Corinthians 13 verse 4 states, "Love is patient and love is kind. It does not envy. It does not boast. It is not proud." With these principles I can lead as president. I believe God can use me and with all the present events going on in history, I can make my mark with God's help.
